## ADDITIONAL INFORMATION

### PROJECT 1

#### Fine Eyewear Website Remodel

An ongoing redesign of the current Fine Eyewear website. Fine Eyewear is a designer eyeglasses and sunglasses retailer, who also specialize in eye examinations.

Technologies: HTML, CSS, JavaScript

URL: <https://github.com/DHSmith22/web-dev-study/tree/main/fine-eyewear-remodel>

### PROJECT 2

#### KeystoneUI

A boilerplate stack that standardizes base HTML/CSS/JS utilizing hand-written root variables and custom class tags, functions, and HTML linking. Created to enhance my workflow and further my understanding of CSS frameworks such as TailwindCSS.

URL: <https://DHSmith22.github.io/KeystoneUI>

## AWARDS

### President's List

Awarded for maintaining a 4.0 GPA for my entire tenure at UTPB. The University of Texas Permian Basin

Duration: Aug 2023 - Dec 2024

## ABOUT ME

---

Hello, there! Since you've read so far, let me tell you a bit about myself in a more personal way! My name is Dorian, and I'm a fresh graduate looking to find his forever company and career. I love all things art, computers, and learning, so it made sense to me to aim for a career where I can combine those things: web development! I have a lot to learn, and with a lot of luck, I'll find my footing and take off running. A quick rundown of my personality, using single words: Witty, Funny, Positive, Personal, Learner, Optimizer, Chatty.

I like to:

- Cook
- Paint
- Read
- Code
- Play videogames
- Learn new things (I like 20 questions and knowing trivia!)
- Optimize my current fixations

My Sports:

- Bouldering(V2-V3 at the moment, love problem solving, slab is scary)
- Bowling (180 PB)
- Disc Golf (brand new!)
- Calisthenics (my poor, poor wrists...)

Current Songs on Repeat (I like songs from all genres, trendy to niche):

- Smooth Operator by Sade
- 2000 Watts by Michael Jackson
- Judas by Lady Gaga
- Killshot - Slowed + Reverb by Magdalena Bay
- Man in the Box by Alice in Chains
- Crazy by Le SSerafim (the Marvel Rivals memes got to me, it's a banger)

Thank you for getting to know a little bit about me! I'd love the chance to meet and learn about you, too!
